Assignment: All students will go on the internet and find Diana Baumrind's Theory on the three Parenting Styles. You will then research and locate a 4th Parenting Style (Uninvolved/Neglectful) and be ready to discuss in class how it relates to the original theory.

Examination: On Examination #1, one of the essay questions will be: List, define, and give an example of the four types of parenting styles. Students should be able to identify and explain each of the four parenting styles. The example should be an application of how the parenting style is used in life situations.
