Grades	# of Schools	% of Schools
A	0	0.0%
B	5	29.4%
C	7	41.2%
D	5	29.4%
F	0	0.0%

Based on SB 1286, and adopted by the Arizona State Board of Education

“A” schools demonstrate an excellent level of performance. For example, an “A” school may have the large majority of their students passing AIMS and AIMS A and typical academic growth in at least the 70th percentile.

“B” schools demonstrate an above average level of performance. For example, a “B” school may have about 60% of their students passing AIMS and AIMS A and typical academic growth in at least the 60th percentile.

“C” schools demonstrate an average level of performance. For example, a “C” school may have about half of their students passing AIMS and AIMS A and typical academic growth around the 50th Percentile

“D” schools demonstrate a below average level of performance. For example, “D” schools earn fewer points than a school that has 50 percent of students passins AIMS and has typically lower academic growth than most schools.

“F” schools are those that receive a “D” letter grade for three consecutive years. The Arizona Department of Education monitors the school for three years following the "F" grade and requires that "F" schools participate in a school improvement program.

3 Digit Data / Estimated to have over 1000 occupations in 2022

Data Sources and Calculations Occupation Data

EMSI occupation employment data are based on final EMSI industry data and final EMSI staffing patterns. Wage estimates are based on Occupational Employment Statistics (QCEW and Non-QCEW Employees classes of worker) and the American Community Survey (Self-Employed and Extended Proprietors). Occupational wage estimates also affected by county-level EMSI earnings by industry.

Industry Data

EMSI industry data have various sources depending on the class of worker. (1) For QCEW Employees, EMSI primarily uses the QCEW (Quarterly Census of Employment and Wages), with supplemental estimates from County Business Patterns and Current Employment Statistics. (2) Non-QCEW employees data are based on a number of sources including QCEW, Current Employment Statistics, County Business Patterns, BEA State and Local Personal Income reports, the National Industry-Occupation Employment Matrix (NIOEM), the American Community Survey, and Railroad Retirement Board statistics. (3) Self-Employed and Extended Proprietor classes of worker data are primarily based on the American Community Survey, Nonemployer Statistics, and BEA State and Local Personal Income Reports. Projections for QCEW and Non-QCEW Employees are informed by NIOEM and long-term industry projections published by individual states.

State Data Sources

This report uses state data from the following agencies: Arizona Department of Administration, Office of Employment and Population Statistics
