

April 2019

AWC Strategic Plan

The AWC Implementation Council (I-Council) met this month to review expectations and discuss linking to resources. The I-Council is composed of the 3 Tri-Chairs from each Strategic Direction, along with Dr. Corr, Dr. Ellen Riek, Lori Stofft, and the members of Cabinet.

Points of discussion included tying all Objectives to college metrics – consider our online [KPI](#) or our [Standard Reports](#) to find a metric that your team would like to address. Linking teams to resources and coaching, and evaluation sheets were discussed.

UPCOMING EVENTS

- May 9th – evaluation sheets due (Tri Chairs to discuss)
- October – Strategic Plan Town Hall
- November – Horizon Event

Innovation Funds Update

Art Beautification

Have you been by the CIE lately? Our Facilities crew has been busy with renovating an existing structure to make room for our Art Garden Beautification.

Brad Pease, Eric Lee and their students are going to make our campus even MORE beautiful!

Implementation Teams

AGILITY

The Agility Team has been meeting regularly every two weeks throughout the spring semester. We have a strong group of committee members who are working to complete the initial draft of the shared governance document. The committee will be coordinating conversations with Liz Murphy from Campus Works and with Dr. Corr to ensure shared governance adequately addresses all interests. We hope to have a draft of the document before the President's Budget Town Hall. We will restart efforts on Cross-Training and Professional Development objectives in the coming months.

TECHNOLOGY

The Technology team held its first SACIIT (Strategic Advisory Committee for Instructional and Informational Technology). SACIIT is similar to the previous TAC group and has faculty representation from each division, along with key positions from PA and Classified employees. If you have a technology need or want to ensure your area is represented, or if you are interested with serving on the committee please contact them via [email](#). Next meeting is Monday, April 1st from 3:05 -4:05 PM and will continue to meet every 2 weeks.

ACCESSIBILITY

The Data Driven Committee will be surveying the community [Tunes & Taco's Festival](#) scheduled for April 12 and 13th at the Yuma Civic Center. Encourage our community members to participate as their voice can make a difference!

PROSPERITY

The Prosperity Implementation Team is excited about the progress to date. The subgroups are digging deeper into Prior Learning Assessment and researching professional organizations that will enhance the conversations taking place at various levels on AWC campuses. Emphasis on business and industry partnerships and collaborations are also a hot topic for our Prosperity Team. On Wednesday, April 3, 2019, Maria Aguirre will be principal speaker at the monthly Southwest Arizona Human Resource Association (SAHRA) meeting discussing the importance of educational pathways and community partnerships in successfully bridging the workforce gap in the region..
