

MATADOR MEN'S BASKETBALL: WHERE ARE THEY NOW?

The major goal of the AWC Athletic program is to place players in four-year schools. No matter how much success we celebrate on the court, if our players are not continuing on with their education and their athletic careers, we cannot consider ourselves a successful program.

Each year, our players are recruited by four-year schools from all over the United States. These schools are from Division I, II, and III of the NCAA and NAIA. It is our wish that every player that wants to continue his or her college athletic career has that opportunity.
