Welcome New Matador!

We are so excited that you have decided to begin or continue your academic journey at Arizona Western College!

You are about to embark on an adventure! Over the next few semesters, you will travel up a road of academic challenges and personal growth. To help you navigate the twists and turns in that road, we have put together this orientation and booklet. Think of it as your road map.

If you follow the advice and information in this orientation and booklet, and meet with your advisors regularly, you will find that your journey will be successful and rewarding.

An important step in the process of beginning your education at AWC is to take part in the New Student Orientation. Participating in New Student Orientation will help you become better prepared academically to start your first semester at AWC and to become acquainted with your new campus community.

It's a great day to be a Matador!

ORIENTATION AGENDA

- AWC majors (degrees and certificates) and General Education requirements.
- Selecting a career/major and working with your advisor.
- Strategies and tips on how to choose classes and build a schedule.
- Ideas on how to be a successful college student.
- Prepare for your first registration.

New Student Orientation, this booklet, along with the AWC program (degree/certificate check-sheet) and the student handbook are important tools that you will want to take advantage of and use along your journey. Your academic advisor will also assist you in your new adventure. Your advisor will help you with decisions on choosing a major and career, selecting appropriate courses each semester, referring you to resources, and assisting you in your college journey.

TRANSFER

Transfer Degrees and Pathways

Arizona Western College

Arizona Western College provides three associate degrees that prepare students for transfer onto the three universities in Arizona.

- AA ~ Associate in Arts**, which is for students majoring in the arts, humanities, or social and behavioral sciences
- ABus ~ Associate in Business**, which is for students majoring in business
- AS ~ Associate in Science**, which is for students majoring in sciences, engineering or in the health professions

All three transfer degrees include AGEC ~ Arizona General Education Curriculum (AGEC-A, AGEC-B, AGEC-S), which is a block of 35 credits of required general education courses (see page 10). The community colleges and universities (NAU, UA, ASU) in Arizona have agreed upon a common structure for a transfer general education curriculum - providing students attending any Arizona community college with the opportunity to build a general education curriculum that is transferable upon completion without loss of credit.

- * All three degrees include general education (AGEC), along with recommended or required freshmen / sophomore preparation courses.
- * Each AGEC is at least a 35 credit lower division general education curriculum block that fulfills the lower division general education requirements at the Arizona universities.
- * A minimum of a “C” grade and a minimum 2.0 GPA is required for all courses in the AGEC.
- * All AWC transfer degrees (AA, AS, ABus) contain an Arizona General Education Curriculum (AGEC) block.

It is never too early to begin planning for a smooth transfer to another institution. A student’s decisions and commitment to a specific program and university directly impact the success of transferring credits. The longer a student waits to make a decision, the more they will risk delaying degree completion. Therefore, students are encouraged to declare their major and university by the time they have earned approximately 24 credits.

Students can find courses that will fulfill more than one component of their degree. These are courses a student can take at the community college that would satisfy AGEC, Associate's Degree, and Baccalaureate degree requirements

Recommended Lower-Division (Freshmen/Sophomore) Preparation: Students should consult with an academic advisor, check the AWC website (degree program check sheet) or www.aztransfer.com (major guides) for information regarding the best possible recommended lower-division preparation for a student’s intended bachelor's degree. Students should complete these courses as a part of their associate degree.

STUDENT PLANNING THROUGH SELF-SERVICE

Self-Service consists of a number of modules that enables students to complete various tasks:

- Review AWC transcripts
- Check progress towards a degree or certificate
- Build a timeline/Educational Plan, semester by semester
- Register for classes
- Apply for graduation
- Student finance
- Request Program Review

Student Planning is a set of self-service academic planning tools that helps students list all courses, semester by semester, in order to complete her/his certificate or degree. Student Planning allows students and advisors to see what courses and requirements students need to graduate. It comes pre-loaded with degree plans that help students better understand pre-requisites and course sequencing as well as sample plans to help students understand which courses are required and when. All of which helps them make better decisions with confidence.

A student's plan (or what is sometimes referred to as an EAP-Educational Academic Plan) should take into account developmental courses, transfer courses, prerequisite courses and class sequencing. To complete a Plan, students should utilize degree/certificate Program Check Sheet for program requirements and Advising Worksheet for general education requirements, as well as consult with their faculty and/or an academic advisor.

Certificate/degree requirements may change from one catalog year to another. Students should follow the requirements of the catalog year at the time of first enrolling in classes at AWC. Students should consult with an advisor if they have questions regarding catalog year.

An academic advisor can review completed plans and make suggestions. Students are ultimately responsible for making certain that their Educational Academic Plan meets all degree/certificate requirements for graduation.

Set a Goal. Make a Plan!
