# WELCOME

## NEW MATADOR

We are excited that you have decided to begin or continue your academic journey at **Arizona Western College!**

You are about to embark on an adventure! Over the next few semesters, you will travel up a road of academic challenges and personal growth. To help you navigate the twists and turns on that road, we have put together this orientation and booklet. Think of it as your road map.

If you follow the advice and information in this orientation, booklet and meet with your advisors regularly, you will find that your journey will be successful and rewarding.

An important step in the process of beginning your education at AWC is to take part in the New Student Orientation. Participating in New Student Orientation will help you become better prepared academically to start your first semester at AWC and to become acquainted with your new campus community.

### ORIENTATION AGENDA

- AWC majors (degrees and certificates) and General Education requirements.
- Selecting a career/major and working with your advisor.
- Strategies and tips on how to choose classes and build a schedule.
- Ideas on how to be a successful college student.
- Prepare for your first registration.

New Student Orientation, this booklet, along with the AWC program (degree/certificate check-sheet) and the student handbook, are important tools that you will want to take advantage of and use along your journey. Your academic advisor will also assist you in your new adventure. Your advisor will help you with decisions on choosing a major and career, selecting appropriate courses each semester, referring you to resources, and assisting you in your college journey.

IT'S A GREAT DAY TO BE A *Matador!*

# TRANSFER DEGREES AND PATHWAYS

In Fall 2025, Arizona Western College adopted the updated Arizona General Education Curriculum requirements, which is a block of 32-35 credits of required general education courses (see page 6). The community colleges and universities (NAU, UA, ASU) in Arizona have agreed upon a common structure for a transfer general education curriculum - providing students attending any Arizona community college with the opportunity to build a general education curriculum that is transferable upon completion without loss of credit.

- Transfer degrees include general education (AGEC), along with recommended or required freshmen / sophomore preparation courses.
- AGECE is at least a 32-35 credit lower division general education curriculum block that fulfills the lower division general education requirements at the Arizona universities.
- A minimum of a "C" grade and a minimum 2.0 GPA is required for all courses in the AGECE

**It is never too early to begin planning for a smooth transfer to another institution.** A student's decisions and commitment to a specific program and university directly impact the success of transferring credits. The longer a student waits to make a decision, the more they risk delaying degree completion. Therefore, students are encouraged to declare their major and university by the time they have earned approximately 24 credits.

Students can find courses that will fulfill more than one component of their degree. These are courses a student can take at the community college that would satisfy AGECE, Associate's Degree, and Baccalaureate degree requirements.

Recommended Lower-Division (Freshmen/Sophomore) Preparation: Students should consult with an academic advisor, check the AWC website (degree program check sheet) or [www.aztransfer.com](http://www.aztransfer.com) (major guides) for information regarding the best possible recommended lower-division preparation for a student's intended bachelor's degree. Students should complete these courses as part of their associate degree.

# STUDENT PLANNING THROUGH SELF-SERVICE

Self-Service consists of many modules that enable students to complete various tasks:

- Review AWC transcripts
- Check progress towards a degree or certificate
- Build a Educational Plan, semester by semester
- Register for classes
- Apply for graduation
- Student finance
- Request Program Review

**Student Planning** is a set of self-service academic planning tools that help students list all courses, semester by semester, to complete their certificate or degree.

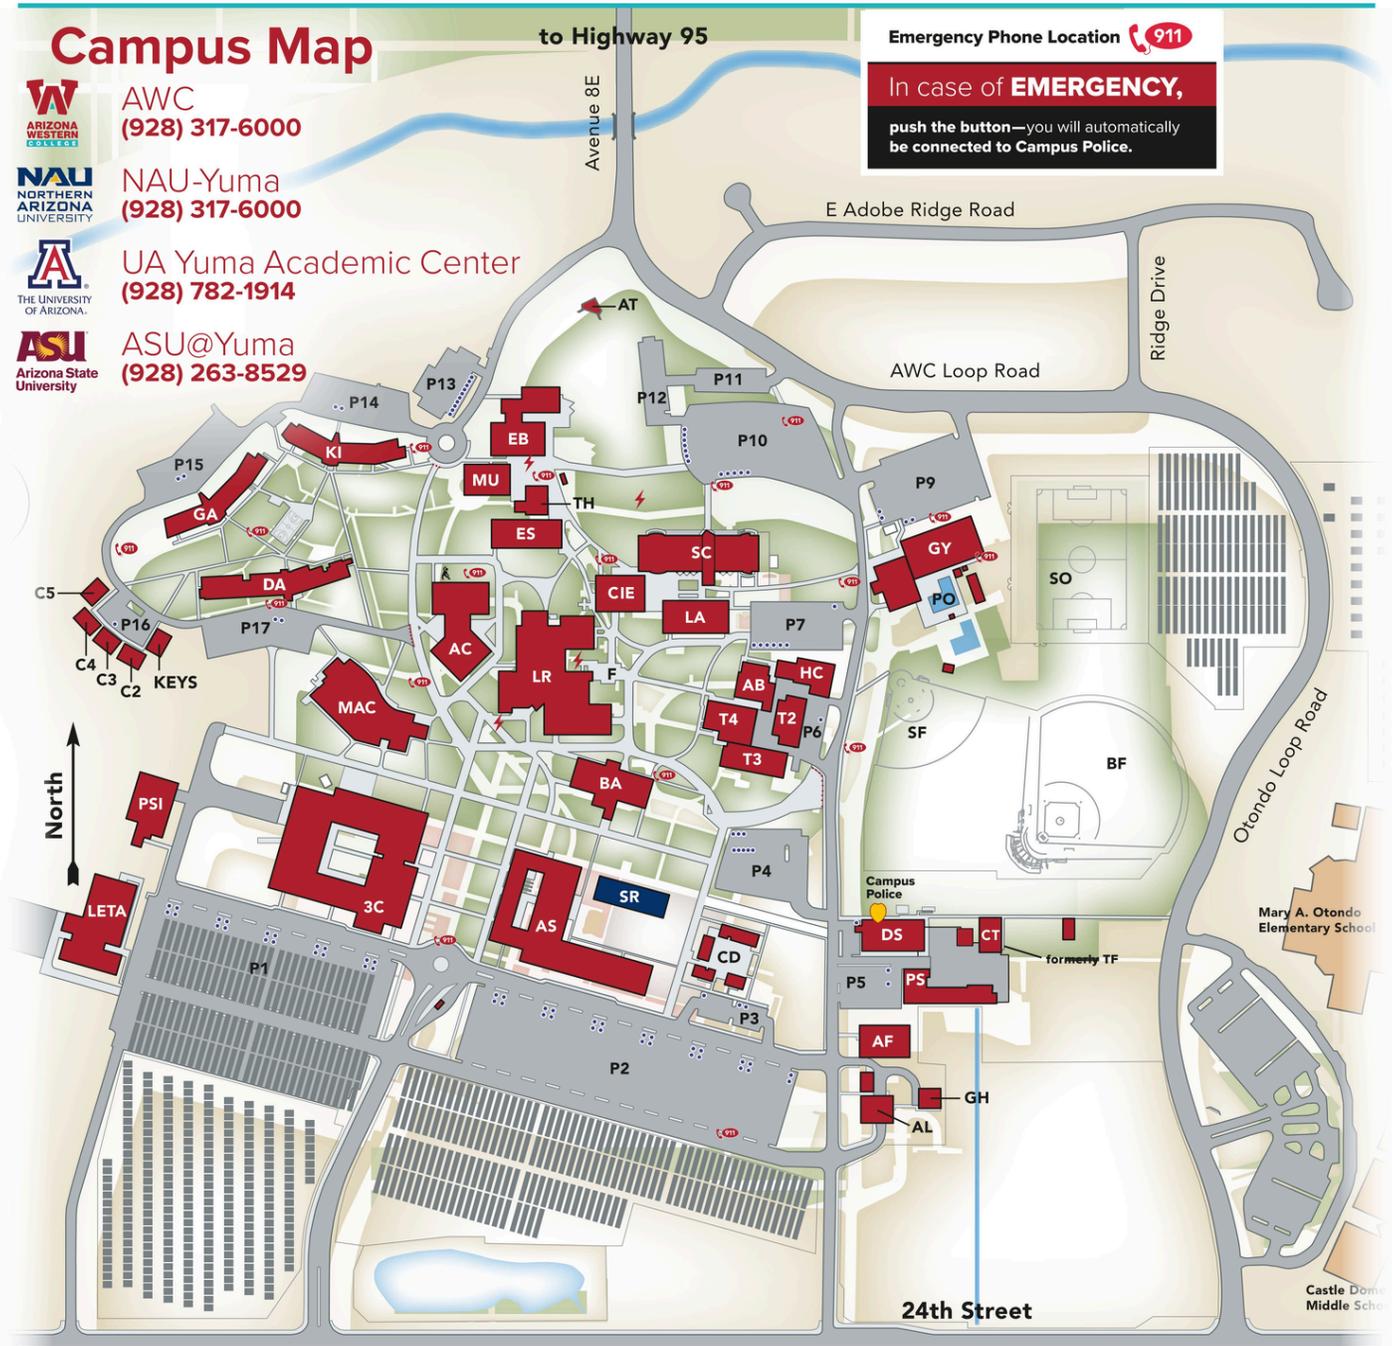

Student Planning allows students and advisors to see what courses and requirements students need to graduate. It comes pre-loaded with degree plans that help students better understand prerequisites and course sequencing, as well as sample plans to help students understand which courses are required and when. All of which helps them make better decisions with confidence.

A student's plan (or what is sometimes referred to as an EAP-Educational Academic Plan) should take into account developmental courses, transfer courses, prerequisite courses, and class sequencing. **To complete a Plan, students should utilize the degree/certificate Program Check Sheet for program requirements and Advising Worksheet for general education requirements, as well as consult with their faculty and/or an academic advisor.**

**Certificate/degree requirements may change from one catalog year to another.** Students should follow the requirements of the catalog year at the time of first enrolling in classes at AWC. Students should consult with an advisor if they have questions regarding the catalog year.

An academic advisor can review completed plans and make suggestions. **Students are ultimately responsible for making certain that their Educational Academic Plan meets all degree/certificate requirements for graduation.**

### Payment

Make sure your classes are paid for by the deadline in order to hold your spot in your classes. If receiving financial aid, make sure you submit all missing documents.

💡 Please check Self-Service under Financial Aid tab.

### Student Photo ID

Once you are registered for classes, stop by the Cashier’s office and pay a \$10 fee, and then head to the Campus Life office to get your official AWC student ID!

### Textbooks

Be sure to purchase your textbooks in time for the start of class! Using the textbook information listed in Self-Service, you will purchase your textbooks from any online source or vendor of your choice.

💡 To find the correct materials, be sure to use the correct ISBN (International Standard Book Number) that correlates with the textbook.
