**Free Tutoring for All Students**

The Student Success Center (SC) offers a variety of free services for students. Trained peer tutors are on site in the Math and Writing Centers to assist students individually or in small groups. Each center houses a state-of-the-art computer lab equipped with software that students can use independently to improve basic skills.  

The Writing Center provides assistance at any stage of the writing process in any subject. Students are able to schedule appointments with a tutor to address individual writing concerns. Writing tutors do not proofread or edit papers but assist with focus on organizational issues, thesis, thesis support, paragraph and sentence construction, grammar, spelling, and punctuation. ESL, Spanish, and reading tutors are also available.  

The Math Center offers tutoring services for all levels of mathematics on walk-in basis. In addition, tutorial support for science, technology, and business courses is provided here. Students can receive help with math-related software or check out a laptop for use in the center. The Math Center also features a graphing calculator loan program and small study group room reservations.  

For more information, call (928) 317-6029 or visit us online at www.azwestern.edu/ssc.
AccessABILITY Resource Services

The AccessABILITY Resource Services office works in partnership with students with disabilities, faculty and staff to remove barriers in the educational process through design and accommodation. We recognize disability as an aspect of diversity and promote a culture of inclusion for all diverse groups.

AccessABILITY Resource Services provides services to students who qualify under the American’s with Disabilities Act, ADA Amendment Act 2008, and Section 504 of the Rehabilitation Act of 1973. An individual with a disability is an individual with a documented impairment that substantially limits one or more of that individual’s major life activities. Recognized disabilities include, but are not limited to, mobility impairments, deafness, hard of hearing, blindness, visual impairments, learning disabilities, chronic medical conditions, and psychological disorders.

Requesting Accommodations and Auxiliary Aids

- Students with disabilities must self-identify with AccessABILITY Resource Services and provide the required disability documentation.

- The eligibility determination process is not a same day process. Once documentation is received, it will be reviewed in order of receipt; therefore, it is recommended that documentation be submitted well in advance of any accommodation related needs (e.g. exam accommodations and alternative media services).

- Students must make an appointment with an ARS coordinator, located on the top floor of the 3C at (928) 344-7674. Students must meet with the coordinator each semester to develop the accommodation letter.

- Students should be prepared to speak to the access specialist about their disability and the barriers they feel they may encounter in the classroom, as well as, accommodations or design modifications needed to ensure equal access.

- The coordinator will work with the students to determine which design modifications or accommodations are appropriate for each class.

- We encourage all students to contact instructors two weeks before the start of classes to discuss accommodations and success strategies for the semester. This not only gives the instructor time to consider the changes that will be needed to ensure access to materials, but also breaks the ice and encourages more effective communication.

Note: Services can be requested at any time during the semester; however, requesting services well in advance will help ensure resources are available when needed.
Public Information and the Security of Student Records

The Admissions and Registration Office takes full responsibility for the security of your academic records. Under the Federal Family Education Rights and Privacy Act, the information in your file may only be released under specific conditions.
