

2019 Strategic Vision Outcomes Report

STRATEGIC VISION FOR 2030

In 2017 Arizona's community colleges embraced a Strategic Vision for 2030, which focuses college efforts around three major goals: expanding access to postsecondary credentials; increasing transfer and completion of associate degrees and certificates; and improving alignment between college programs and workforce needs.

The Strategic Vision for 2030 builds upon the colleges' previous long-term plan, published in 2011, and outlines how Arizona's ten community college districts will continue to improve student outcomes, as well as how the districts contribute to Arizona's broader economic and educational goals. **In particular, the Strategic Vision for 2030 creates a framework for reaching the Achieve60AZ goal that by 2030, 60% of the Arizona working-age population will hold a postsecondary credential.**

A major function of the Strategic Vision for 2030 is the collection, analysis, and publication of data pertaining to 33 short-term, mid-range, long-term, and follow-up metrics. The majority of these metrics have been in place for years, making it possible to evaluate trends in student progress and outcomes.

Statewide and district-level data will continue to be used to guide improvement efforts at community colleges across the state. Statewide data will also be shared with the Arizona Board of Regents, the Arizona Department of Education, and Arizona's workforce development and business communities in order to assist in the improvement of educational and economic pathways.

The Strategic Vision for 2030, as well as a Technical Guide that provides detailed definitions of each metric, can be found online at: www.arizonacommunitycolleges.org.

METRICS AND COHORTS

METRICS

The 2019 Strategic Vision Outcomes Report presents data related to 33 short-term, mid-range, long-term, and follow-up metrics. These data identify areas of strength, as well as places where Arizona Western College (AWC) will need to focus its efforts in order to expand access, increase transfer and completion, and improve alignment with workforce needs.

Short-term metrics correspond to enrollment rates, cost measures, and training for high-demand occupations.

Mid-range metrics examine student persistence and success in the first two years of college.

Long-term metrics pertain to transfer and completion rates.

Follow-up metrics examine student success after departing the community college and may be affected by economic forces, as well as the actions of Arizona universities.

COHORTS

The 2019 Strategic Vision Outcomes Report tracks several cohorts of students.

2016 and 2012 New Student Cohorts are used to examine student persistence and success after two and six years, respectively.

2016 and 2012 Credential-Seeking Sub-Cohorts, defined as cohort members who earned at least 12 credits by the end of their second year, are used for some retention, transfer, and completion measures. Credential-seeking sub-cohorts provide a more accurate gauge of student success, as they take into account learners' diverse education and training goals.

2015-16 Occupational Cohort, comprised of students who exited AWC in 2015-16 after completing a specified number of credits in an occupational pathway, is used in follow-up metrics related to wage growth and earning industry-recognized credentials.

Expand Access: Short-Term Metrics

Metrics 1 and 2: FTSE and Total Enrollment

Total annual enrollment at AWC has declined from its recession-era high in 2010-11, although full-time student equivalent (FTSE) enrollment has stabilized. Despite this enrollment decline, which mirrors statewide and national trends, AWC has nearly doubled the number of degrees and certificates awarded in the same time period (see metric 19).

Metrics 3 and 4: Enrollment of ABE/GED and Dual Credit Learners

At AWC, annual enrollment in Adult Basic Education (ABE) and/or General Educational Development (GED) courses decreased to 22 in 2017-18. Total annual enrollment of high school learners in dual credit courses was 483 in 2017-18. But these programs are essential in expanding access to Arizona's community colleges.

Expand Access: Short-Term Metrics

Metric 5: Enrollment of Underserved Populations

Since 2010-11, the percentage of AWC students who are members of an underserved racial/ethnic group has increased and exceeds the percentages of La Paz and Yuma Counties belonging to an underserved population (42% and 67%, respectively).¹ AWC enrolls fewer adult learners but more Pell recipients than statewide averages (35% and 28%, respectively).

Metric 6: Percent of Credit Hours Earned Via Alternative Times or Places

At AWC, 40% of instruction in 2017-18 occurred in traditional semester-length courses held on campus Monday through Friday, 8am to 5pm. Extending access to many diverse populations, 60% of all student credit hours were earned online, at night or on the weekends, or at skills centers, American Indian reservations, or other locales.

Expand Access: Short-Term Metrics

Metric 7: Community College-Going Rate

AWC enrolls 40% of recent high school graduates in its service area. This number is higher than statewide (34%) and national averages (23%).² AWC will continue to work with other community colleges and the Arizona Board of Regents to improve college-going across the state.

Metric 8: Cost of Attendance as a Percentage of Median Household Income

At just under \$10,000 per year, the net price of attending AWC is just 23% of the median household incomes in La Paz and Yuma Counties. This rate is lower than Arizona's public universities (24-29%),³ making AWC an excellent and affordable option for postsecondary education and training.

Expand Access: Mid-Range Metrics

Metrics 9 and 10: Developmental Course Success Rates

Over two years, 72% of student credit hours attempted in developmental English or reading by AWC's 2016 New Student Cohort were successfully completed (with a grade of A, B, C, or Pass). In that same time period, 75% of student credit hours attempted in developmental math by the same cohort were successfully completed (with a grade of A, B, C, or Pass).

Metrics 11 and 12: Success After Developmental Education

After six years, 48% of developmental English or reading learners in AWC's 2012 New Student Cohort successfully completed a college-level course in English, and 43% of developmental math learners in the same cohort completed a college-level math course. These success after developmental education rates are slightly higher than statewide and national averages.⁴

Increase Transfer and Completion: Mid-Range Metrics

Metric 13: College-Level Course Success Rate

Over two years, 76% of student credit hours attempted in college-level courses by AWC's 2016 New Student Cohort were successfully completed (with a grade of A, B, C, or Pass). This rate has increased substantially over the past seven years.

Metric 14: Percent of First College-Level Math and English Credit Hours Completed

In 2017-18, between 56% and 86% of student credit hours attempted in College Algebra, English Composition I and II, and Speech were successfully completed (with a grade of A, B, C, or Pass). The rates at which AWC students successfully complete these first college-level courses mirror to statewide and national averages.⁵

Increase Transfer and Completion: Mid-Range Metrics

Metrics 15 and 16: Percent of Learners Attaining Two-Year Credit Thresholds

By the end of their second year, 58% of part-time learners in AWC’s 2016 Credential-Seeking Cohort had completed 24 credits, and 51% of full-time learners in the same cohort had completed 42 credits. These rates are notable, as research has linked attainment of credit thresholds to higher persistence and completion rates.⁶

Metrics 17 and 18: Retention Rates

Ninety-six percent of AWC’s 2016 Credential-Seeking Cohort (excluding those who transferred and/or earned a degree or certificate) persisted to spring 2017, and 78% of them returned the following fall. AWC’s retention rates are substantially higher than the 54%⁷ reported as a national comparison, in part because the national figure is not limited to credential-seekers.

Increase Transfer and Completion: Long-Term Metrics

**Metric 19:
Degrees and Certificates Awarded**

Since 2015, the number of degrees and certificates awarded by AWC has declined slightly, to 2,088. Of the 2018 total, 55% were degrees and 45% were certificates. This decrease is a direct result of declining enrollment; AWC is making a concerted effort to increase the percentage of learners earning postsecondary credentials.

**Metric 20: Graduation
(Degree/Certificate Completion) Rate**

After six years, 28% of AWC's 2012 Credential-Seeking Cohort had completed a degree or certificate. AWC's graduation rate is higher than the most recent national comparison (23%),² in part because the national number is not limited to credential-seekers.

Increase Transfer and Completion: Long-Term Metrics

Metric 21: AGECs Awarded

In 2017-18, AWC awarded 646 Arizona General Education Curriculum (AGEC) certificates, a slight increase from 2016-17. The AGEC is comprised of 35-37 credit hours of coursework that, upon completion, transfer to all public colleges and universities in the state and fulfill lower division, general education requirements.

Metric 22: AGEC Completion Rate

At AWC, 19% of the 2012 Credential-Seeking Cohort completed an AGEC within 6 years. Increasing the AGEC completion rate—a key priority for the state’s community colleges—will not only ease transfer to Arizona’s public universities but also help students earn bachelor’s degrees in less time and with fewer excess credits.⁸

Increase Transfer and Completion: Long-Term Metrics

Metrics 23 and 24: In-State Transfers and Percent with AGEC and/or Degree

Between 2010 and 2018, the number of students transferring from AWC to an in-state, public university increased by 22% to 467, despite declining enrollments. In addition, the percentage of transfers who earned an AGEC and/or degree prior to transferring has increased, indicating that the transfer process is becoming more efficient and cost effective.

Metrics 25 and 26: Transfer Rates

At AWC, transfer rates to Arizona universities among ASSIST Transfer Behavior Cohorts have remained consistent at about 24%. The overall transfer rate (the percent of learners in credential-seeking cohorts who transfer to any four-year college or university within 6 years) is slightly higher at 25%. Both rates mirror the most recent national average (25%).⁹

Increase Transfer and Completion: Long-Term Metrics

Metric 27 : Percent of Learners Achieving a Successful Outcome

Fifty-six percent of learners in AWC’s 2012 Credential-Seeking Cohort achieved a successful outcome within 6 years. Because community college learners enter college with diverse education and training goals, and because they often attend part-time and/or earn credits from more than one institution, several national accountability initiatives—including the Student Achievement Measure—have broadened the definition of a successful outcome to include earning a degree or certificate, transferring to another two- or four-year college or university, or continued enrollment. Nationally, 57% of all community college students (62% of full-timers and 55% of part-timers) achieve one of these successful outcomes within 6 years.¹⁰

Increase Transfer and Completion: Follow-Up Metrics

Metric 28: Percent of Full-Time Transfers to AZ Universities Earning Bachelor's Degrees

Seventy-two percent of all 2014-15 full-time transfers from AWC to in-state, public universities earned a bachelor's degree within four years. This rate has remained relatively steady in recent years and indicates that most full-time transfers are graduating from the state's public universities in a timely manner.

Metric 29: Percent of All Transfers Earning Bachelor's Degrees

Fifty percent of 2014-15 transfers from AWC to all four-year institutions—public and private, in-state and out—earned a bachelor's degree within four years. This rate is slightly higher than the statewide average (49%) but lower than the national number (60%)¹¹ and may reflect a high incidence of part-time attendance after transfer.

Increase Transfer and Completion: Follow-Up Metrics

Metric 30: Estimated Percent of the Arizona Working-Age Population with a Postsecondary Credential

In 2018, an estimated 46.2% of the Arizona working-age population (residents aged 25-64) held a workforce certificate, associate degree, or bachelor's or higher degree (up from 41.8% in 2014). Arizona's community colleges are working closely with the Arizona Board of Regents and other postsecondary institutions across the state to reach the Achieve60AZ goal that by 2030, 60% of the Arizona working-age population will hold a postsecondary credential.

Improve Alignment: Short-Term and Follow-Up Metrics

Metric 31:
FTSE Enrollment in Occupational Courses

FTSE enrollment in AWC's occupational courses was 1,058 in 2017-18. Many of these enrollments were in degree or certificate programs associated with the highest-demand occupations in the state, including (among others) nurses, preschool teachers, computer support specialists, web developers, and medical or dental assistants.

**Metric 32: Percent of Occupational Learners
Earning Industry-Recognized Credentials**

Of all learners in AWC's 2015-16 Occupational Cohort who took a technical skill or end-of-program assessment up to one year after college exit, 90% passed the assessment and/or earned an industry-recognized credential. Examples of occupational programs leading to industry-recognized credentials include nursing, EMT, construction, solar technologies, and fire science.

Improve Alignment: Short-Term and Follow-Up Metrics

Metric 33: Percent of the 20 Highest-Demand Occupations in Yuma County requiring more than a High School Diploma but less than a Bachelor's Degree for which AWC offers Degree and/or Certificate Programs

- √ Nursing Assistants
- Medical Assistants
- Teacher Assistants
- Heavy and Tractor-Trailer Drivers
- √ Preschool Teachers, Except Special Education
- √ Licensed Practical and Licensed Vocational Nurses
- √ Health Technologists and Technicians, All Other
- Medical Records and Health Information Technicians
- √ Agricultural and Food Science Technicians
- Dental Assistants
- Hairdressers, Hairstylists, and Cosmetologists
- √ Computer User Support Specialists
- √ Automotive Service Technicians and Mechanics
- √ Heating, Air Conditioning, and Refrigeration Mechanics and Installers
- √ Bookkeeping, Accounting, and Auditing Clerks
- Aircraft Mechanics and Service Technicians
- √ Paralegals and Legal Assistants
- √ Electrical and Electronics Engineering Technicians
- √ Architectural and Civic Drafters
- Telecommunications Equipment Installers and Repairers, Except Line Installers

Arizona Western College offers degree and/or certificate programs training workers for 60% (12 of 20) of the highest-demand occupations in Yuma County.
