Make-up & Online Exams

Our testing services are also available for faculty teaching online courses that require to have midterms and finals exams be taken in a proctored environment.

Procedure for Submitting a Test Request Form
Below are instructions to follow to guarantee that this procedure operates smoothly and as you have designated on the form.

1. Complete and submit the Test Request Form. Our processing time is two working days prior to the date the exam will be taken.
2. Attach a copy of the test for each student if the test will be given as a paper/pencil test.
3. Attach any other material needed for testing such as reference sheets or scantrons.
4. Choose testing dates carefully. Testing Services will strictly adhere to your timeframe. All tests need to have a deadline date and time. If time is not provided, it will be assumed that the end of the working day will be the deadline.
5. Inform your students that a current valid photo-ID is required. Let them know the testing guidelines that you have requested such as the dates allowed for testing, the time allowed, and materials allowed during testing.
6. Pick up your exam(s) from the Testing Center after the deadline. If you have listed a designee who will pick up the exam, make sure that they bring a valid photo ID.
7. Due to limited resources and for security reasons, our office does not:
   a. Mail or email completed exams to instructors.
   b. Allow students to bring or take back their exam to the instructor.
   c. Collect materials such as homework or extra credit from students for faculty pick up.
