- Alumni
- Entrepreneurs
- Business owners
- Community in general

Event details:

The **Border Entrepreneurial Challenge (BEC) 2023**, will take place March 9-12, 2023, at the AWC/NAU-Yuma campus in Yuma, Arizona, with participants from Mexico and the United States. The purpose is for interested students, college and university alumni, and entrepreneurs to have the opportunity to work with binational teams or individually to pitch new entrepreneurial ideas or expand their existing businesses to a binational panel of judges.

The BEC will allow the participants to present their business ideas to potential investors by interacting with different participants from the border region, listening to Experts from different entrepreneurial and business fields, having guided working sessions with Mentors, and competing with their team or entrepreneurial idea to gain the spot on the final presentation.

The website of the event: <https://nau.edu/yuma/bec/>
