SUSTAINABILITY IN SUPPLY CHAIN

Student Name	ID #	Advisor	Major Code: CERT.LGS4 Credits: 3
--------------	------	---------	-------------------------------------

In the Sustainability In Supply Chain certificate program, participants explore sustainable practices in supply chain management, focusing on environmental responsibility, social equity, and economic viability. Students will examine strategies for reducing carbon footprints, implementing circular economy principles, ensuring ethical sourcing, and building resilient supply networks. Emphasis will be placed on real-world case studies, industry standards, and emerging technologies that drive sustainability.
