The Associate in Science degree is designed for students who are undecided about a university major. As such, students are asked to complete two steps: 1. complete the AGEC and 2. create a block of credits: (to meet the required 60 credit program minimum) which are transferable to any of the three public state universities in Arizona; the selection of these courses (numbered 100 or higher) ought to be made in consultation with an academic or faculty advisor and by consulting the Course Equivalency Guide (CEG) (www.aztransfer.com). Students should select courses based on exploring various fields of interests.
