

Nursing Assistant Curriculum

Rev: 8/23

Source: *Arizona State Board of Nursing, Educational Resources, CNA Curriculum*

Textbook: Fuzy, Jetta, Hartman's Nursing Assistants Care The Basics, 6th ed., 2022

Workbook: Fuzy, Jetta., Hartman's Nursing Assistants Care The Basics, 6th ed., 2022

The nursing assistant training program curriculum was developed by the Nursing Assistant Advisory Committee and approved by the Arizona State Board of Nursing on January 27, 2006. The curriculum incorporates Article 8 Nursing Assistants rules implemented on December 5, 2005, and meets the requirements of R4-19-802 (B) (1) through (B) (4) and R4-19-802 (C) (1) through (C) (14). Approved training programs may use this curriculum as a template to develop/write individual program curriculums.

1.0 Competency: Functions as a member of the health team within the health care facility and/or community. Time Allotted: 6 hrs.

Learning Goals	Content Outline	Learning Activities and/or Reading Assignment Resources
<p>1.1 Identifies essential functions of the health care facility and states the differences between acute, long-term, assisted living, home care and hospice.</p>	<p>Functions, similarities, and differences in the following:</p> <p>A. Acute care</p> <p>B. Long-term care</p> <p>C. Assisted Living</p> <p>D. Home care</p> <p>E. Rehabilitation</p> <p>F. Hospice.</p>	<p><u>Read:</u></p> <ul style="list-style-type: none"> • Chapter 1: The Nursing Assistant in Long-Term Care • Chapter 2: Foundations of Resident Care • Chapter 10: Caring for yourself • Arizona State Board of Nursing, Nurse Practice Act - Rules: Article 8. Certified Nursing Assistants <p><u>Assignment:</u></p> <ul style="list-style-type: none"> • Complete related Workbook chapters. <p>Lab: : Lab Tour Handwashing Bed Bath Back Massage / Skincare Bedpan & Output Catheter Care Colostomy Care Changing Adult Briefs Grooming (Nail Care, Shaving, Hair Care) Application of TED Hose </p>
<p>1.2 Explains the essential duties of the nursing team within a care facility.</p> <p>A. Identifies the essential function of the RN.</p> <p>B. Identifies the essential function of the LPN.</p> <p>C. Identifies the essential function of the nurse assistant.</p>	<p>Functions and duties of nursing personnel:</p> <p>A. RN</p> <p>B. LPN</p>	

<p>D. Discuss the elements of a functioning team.</p> <p>E. Works with other members of the team e.g., physician, dietician, Dietary Technician, Physical Therapist, Nurse Practitioner, speech therapist and Social Worker</p>	<p>C. Nurse Assistant</p> <p>D. Organization structure</p> <p>E. Working with other members of the team e.g., physician, dietician, Dietary Technician, Physical Therapist, Nurse Practitioner, speech therapist and Social Worker</p>	
<p>1.3 Explains the nursing assistant role as outlined in the different regulatory and professional guidelines.</p>	<p>Regulatory agencies and professional guidelines.</p> <p>A. Omnibus Budget Reconciliation Act (OBRA)</p> <p>B. Arizona State Board of Nursing prescribed requirements for certification</p> <p>C. Arizona State Board of Nursing prescribed requirements for recertification</p> <p>D. Standards of conduct (R4-19-814)</p> <p>E. Ethics in the workplace</p> <p>F. Informed consent</p> <p>G. Advanced Directives/ do not resuscitate</p>	
<p>1.4 Describes the delegation process.</p>	<p>Delegation process:</p>	

	<p>A. Responsibility and accountability in delegation</p> <p>B. Factors affecting delegation</p> <p>C. 5 Rights of delegation</p> <p>D. Accepting and refusing delegation</p>	
1.5 Demonstrates professional work habits and time management skills.	<p>Guiding principles:</p> <p>A. Time management skills</p> <p>B. Application in the work setting</p> <p>C. Realistic resident care assignment load</p>	
1.6 Demonstrates appropriate stress relieving techniques.	<p>Guiding principles:</p> <p>A. Stress management techniques</p> <p>B. Application in the work setting</p>	

2.0 Competency: Demonstrates ethical and legal behavior that maintains resident's rights. Time Allotted: 2 hrs.

Learning Goals	Content Outline	Learning Activities and/or Reading Assignment Resources
<p>2.1 Demonstrates ethical and legal behavior by maintaining the standards set forth for the health care professions.</p> <p>A. Explains the functions, roles responsibilities and legal limits of nursing assistant/practice.</p>	Regulatory agencies and professional guidelines	<p><u>Read:</u></p> <ul style="list-style-type: none"> • Chapter 1: The Nursing Assistant Long- Term Care • Chapter 6: The Personal Care Skills • Chapter 3: Understanding Residents • Chapter 10: Caring for yourself

<p>B. Discuss the regulatory boards, state and federal statutes, rules and regulations, standards and legal and advisory opinions that affect the practice of the nursing assistant.</p> <p>C. Explains state certification and renewal requirements for NAs – include criminal conduct.</p> <p>D. Identifies the standards of conduct that the nurse assistant must maintain in their daily care of residents.</p> <p>E. Demonstrates professional behaviors.</p>	<p>A. Concepts of ethical and legal behavior for healthcare professional (emphasis on nursing assistant standards)</p> <p>B. Functions, roles, limits and state certification process under the Arizona State Board of Nursing <i>Standards of Conduct for Nursing Assistants</i>; Federal laws regulating standards of care/conduct (Omnibus Budget Reconciliation Act – OBRA); Joint Commission on Accreditation of Healthcare Organizations (JCAHO) standards and Occupational Safety and Health Administration standards (OSHA)</p> <p>C. Nursing Assistant Certification</p> <ol style="list-style-type: none"> 1. AZBN Basic Educational Requirements 2. Process for initial certification 3. Felony Bar – criminal conduct 4. Certification renewal requirements <p>D. Standards of conduct</p> <ol style="list-style-type: none"> 1. Federal 2. Arizona Standards of Conduct for Nursing Assistants 3. JCAHO standards 4. OSHA standards <p>E. Characteristics of professional behavior (examples such as):</p> <ol style="list-style-type: none"> 1. Caring 2. Competent 3. Conscientious (including personal hygiene) 4. Courteous 	<p><u>Assignment:</u> Complete related Workbook chapters.</p> <p>Lab: Measuring Height and Weight Bedmaking Measuring Vital Signs Pain Scores Documentation of ADL's Feeding a Dependent Resident Donning & Doffing PPE Dressing a Bedridden Resident Intake and Output </p>

<p>F. Accurately utilizes vocabulary words/terms related to ethical/legal behavior and resident rights.</p>	<p>5. Dependable/Timely 6. Honest 7. Team player</p> <p>F. Key Terms</p> <ol style="list-style-type: none"> 1. Abandonment 2. Abuse <ol style="list-style-type: none"> a. Physical abuse b. Sexual abuse c. Verbal abuse d. Emotional abuse <ul style="list-style-type: none"> • Threats • Humiliation e. Involuntary seclusion f. Financial abuse 3. Advance Directive 4. Advocate 5. Assault 6. Battery 7. Code of conduct 8. Defamation of character <ol style="list-style-type: none"> a. Slander b. Libel 9. Dual relationship & professional boundaries 10. Ethics 11. False imprisonment 12. Informed consent 13. Invasion of privacy 14. Neglect <ol style="list-style-type: none"> a. physical neglect b. psychosocial neglect 15. Ombudsman 16. Privacy <ol style="list-style-type: none"> a. Personal b. Visits c. Telephone conversations d. Information about care 17. Quality of Life 18. Restraints 	
---	---	--

	<ul style="list-style-type: none"> a. Chemical restraints b. Physical restraints 19. Self-Determination Act 20. Standards of Care 21. Theft 	
<p><u>2.2</u> Interprets, explains and applies the Resident's Bill of Rights.</p>	<p>Principles and rationale of Resident's Rights (Right to...)</p> <ul style="list-style-type: none"> A. Free choice B. Freedom from abuse and restraints C. Privacy D. Confidentiality of personal and clinical records (Health Insurance Portability and Accountability Act - HIPAA standards) E. Accommodation of needs <ul style="list-style-type: none"> 1. Physical 2. Psychosocial F. Organize and participate in family & resident groups G. Participate in social, religious and community activities H. Examine survey results and correction plans I. Manage personal funds J. Information about eligibility for Medicare/Medicaid benefits K. File complaints about abuse, neglect or misappropriation of property 	

	<ul style="list-style-type: none"> L. Information about advocacy groups M. Immediate & unlimited access to family or relatives N. Share a room with partner/intimacy O. Perform or not perform work for the facility P. Remain in the facility Q. Use personal possessions R. Notification of change in condition 	
<p><u>2.3</u> Provides for resident privacy.</p> <ul style="list-style-type: none"> A. Describes the resident’s right to privacy. B. Explains how the nursing assistant can help the resident maintain the right to privacy. 	<p>Principles and rationale of right to privacy:</p> <ul style="list-style-type: none"> A. Review methods to maintain privacy (i.e. not taking VS in public areas such as the dining room). B. Maintaining privacy while performing resident care. 	
<p><u>2.4</u> Maintains resident confidentiality.</p> <ul style="list-style-type: none"> A. Describes the resident’s right to confidentiality. B. Identifies how the nursing assistant can protect the resident’s right to confidentiality. 	<p>Principles and rationale of maintaining confidentiality:</p> <ul style="list-style-type: none"> A. HIPAA regulations on confidentiality “unintended receiver”. B. Methods to protect the resident’s right to confidentiality. 	
<p><u>2.5</u> Promotes the resident’s right to make personal choices to accommodate their needs.</p>	<p>Principles and rationale of promoting resident’s personal choices:</p>	

<p>A. Describes the resident's right to personal choice.</p> <p>B. Offers choices when caring for residents.</p>	<p>A. Guidelines, examples situations describing the right to choose.</p> <p>B. Methods to protect the resident's rights to make personal choices.</p>	
<p><u>2.6</u> Gives assistance in resolving grievances and disputes.</p> <p>A. Describes the resident's right to voice disputes and grievances.</p> <p>B. Explains the role of the nursing assistant when residents voice concerns, complaints or questions about treatment or care.</p>	<p>Guidelines in resolving grievances.</p> <p>A. Key terms and concepts: 1. Grievance 2. Ombudsman 3. Resident's Council</p> <p>B. Methods to resolve grievances and disputes within the nursing assistant role.</p>	
<p><u>2.7</u> Maintains care and security of resident's personal possessions.</p> <p>A. Describes the resident's right related to the care and security of personal possessions.</p> <p>B. Explains the role of the nursing assistant in safeguarding resident's personal possessions.</p>	<p>Security of residents' personal possessions.</p> <p>A. Principles and rationale of safeguarding residents' personal possessions.</p> <p>B. Methods to care and secure residents' possessions.</p> <p>1. Safe for valuables 2. Labeling personal items and containers.</p>	
<p><u>2.8</u> Promotes the resident's right to be free from abuse, mistreatment and neglect.</p>	<p>Principles and rationale of protecting resident from abuse, mistreatment and neglect:</p>	

<p>A. Explains the role of the nursing assistant in protecting the resident from abuse, mistreatment and neglect.</p> <p>B. Describes types of elderly abuse.</p> <p>C. Identifies signs of abuse.</p>	<p>A. Signs of abuse, mistreatment and neglect.</p> <p>B. Methods to protect the resident from abuse, mistreatment and neglect.</p> <p>C. Signs of resident abuse.</p>	
<p><u>2.9</u> Reports any instance of abuse, mistreatment or neglect to the appropriate supervisor.</p> <p>A. Discuss the legal requirement and consequences for failure to report abuse, mistreatment or neglect.</p> <p>B. Reviews appropriate methods and chain of command to report instances of abuse, mistreatment or neglect.</p>	<p>Principles and rationale to report abuse, mistreatment or neglect:</p> <p>A. OBRA and state requirements</p> <ol style="list-style-type: none"> 1. Employee responsibility 2. Consequences for failure to report. <p>B. Methods to report abuse, mistreatment or neglect:</p> <ol style="list-style-type: none"> 1. Chain of Command 2. Facility policy 3. Community agencies 	
<p><u>2.10</u> Utilizes interventions that minimize the need for restraints.</p> <p>A. Identifies ethical and legal issues in the use of restraints.</p> <p>B. Describes the resident's right to be free of restraints.</p>	<p>Principles and rationale for the appropriate use of restraints.</p> <p>A. Ethical and legal issues of using restraints.</p> <ol style="list-style-type: none"> 1. JCAHO guidelines 2. Physician orders 3. Release restraints every 2 hours and document 4. Methods to avoid using restraints <p>B. Right to be free from restraint</p> <ol style="list-style-type: none"> 1. Informed consent 2. Least restrictive form 	

<p>C. Identifies the role of the nursing assistant in helping to keep the resident free from restraint.</p> <p>D. Provides for resident's basic needs and re-applies restraints as appropriate.</p> <p>E. Observes and reports resident's status while in protective devices.</p>	<p>3. Types of restraints</p> <ol style="list-style-type: none"> a. Physical b. Chemical c. Active restraint d. Passive restraint <p>C. Alternative to restraints.</p> <ol style="list-style-type: none"> 1. Diversion 2. Company 3. Activities 4. Exercise 5. Basic needs met 6. Other <p>D. Care of resident in restraint</p> <ol style="list-style-type: none"> 1. observe according to protocols 2. restraint removed, person repositioned, basic needs met at least every 2 hours <p>E. Agency guidelines for checking resident and documentation</p>	
<p><u>2.11</u> Promotes resident independence.</p> <p>A. Describes the resident's right related to self-determination, self-care and independence.</p> <p>B. Identifies actions nursing assistants may take to promote resident independence.</p>	<p>Guidelines to support resident's independence.</p> <p>A. Principles and rationale of promoting resident independence.</p> <p>B. Methods to promote resident's independence.</p>	
<p><u>2.12</u> Assists residents to participate in activities.</p> <p><u>A.</u> Describes the resident's right to participate in family and group activities.</p>	<p>Guidelines to support resident's involvement in activities.</p> <p>A. Principles and rationale of assisting resident to participate in activities.</p>	

<p>B. Provides for activities of daily living and restorative activities for clients.</p>	<ol style="list-style-type: none"> 1. Activities of Daily Living 2. Family meetings <p>B. Methods to assist resident to participate in activities.</p>	
--	--	--

3.0 Competency: Assists in identifying the mental health and social service needs of residents. Time Allotted: 4 hrs.

Learning Goals	Content Outline	Learning Activities and/or Reading Assignment Resources
<p>3.1 Discuss basic human needs of the individual.</p> <p>A. Identifies basic human needs throughout the lifespan, including physical, socio-cultural, social service and mental health needs.</p> <p>B. Identifies the developmental tasks associated with the aging process.</p> <p>C. Describes mental status and behavior changes.</p> <p>D. Identifies the role of the elderly in the home and community, including cultural and religious aspects.</p>	<p>Basic Human Needs</p> <p>A. Maslow’s hierarchy and Erickson’s development stages</p> <p>B. Basic human needs of the adult moving from middle adulthood through late adulthood.</p> <ol style="list-style-type: none"> 1. The young-old: 60-74 years 2. The middle-old: 75-84 years 3. The old-old: older than 85 years <p>C. Mental and behavior changes</p> <ol style="list-style-type: none"> 1. Impact of restrictions such as reduced income on psychosocial relationships. 2. Changes due to disease process and aging <p>D. Role of elderly in home and community.</p> <ol style="list-style-type: none"> 1. Cultural and religious outlooks about older adults. 2. Changing family dynamics throughout aging. 	<p><u>Read:</u></p> <ul style="list-style-type: none"> • Chapter 3: Understanding Residents (Objective 3.1 ,3.4) • Chapter 5: Confusion, Dementia, and Alzheimers (objective 3.6, 3.7) • Chapter 10: Caring for yourself <p><u>Assignment:</u> Complete related Workbook chapters.</p> <p>Lab: Skills Practice</p>

	<p>3. Housing options as aging progresses.</p> <p>4. Impact of retirement and increased time and availability.</p>	
<p>3.2 Explains how cultural and spiritual attitudes may influence psychological responses.</p> <p>A. Identifies ways to accommodate cultural and spiritual differences.</p> <p>B. Identifies the nursing assistant's role in respecting cultural and spiritual differences.</p>	<p>Examples of cultural and spiritual preferences and responses that may influence the approach to caring for the resident.</p> <p>A. Health care beliefs.</p> <p>B. Sick care practices.</p> <p>C. Family members' roles.</p>	
<p>3.3 Identifies sources of stress common to residents.</p> <p>A. Defines stress.</p> <p>B. Explains the difference between mental health and mental illness.</p> <p>C. Identifies nursing assistant's responsibility of reporting signs and symptoms of stress and/or inappropriate coping mechanisms to supervisor.</p>	<p>Basic concepts of Mental Health.</p> <p>A. Definition of stress.</p> <p>B. Definition of mental health.</p> <p>C. Common causes of stress related to life stages.</p> <ol style="list-style-type: none"> 1. Signs and symptoms of stress 2. Common coping mechanisms 3. Potential for self-harm 	
<p>3.4 Provides appropriate care for residents with mental health problems.</p>	<p>Care for residents with common mental health problems.</p> <p>A. Anxiety</p>	

	<p>B. Depression</p> <p>C. Affective disorders</p> <p>D. Schizophrenia</p> <p>E. Substance abuse</p> <p>F. Eating disorders</p> <p>G. Potential for self-harm</p>	
<p>3.5 Modifies own behavior in response to resident behavior.</p> <p>A. Identifies the nursing assistant's role in maintaining a respectful attitude for the person who displays difficult behavior.</p> <p>B. Identifies at least three effective approaches to managing difficult behavior of residents.</p>	<p>A. Nursing assistant role when interacting with residents exhibiting difficult behavior.</p> <p>B. Effective approaches to managing difficult behaviors of residents.</p> <ol style="list-style-type: none"> 1. Distraction. 2. Relaxation techniques 3. Calm environment 4. Adjusting time of care 5. Encouraging family participation 	
<p>3.6 Describes ways that residents may be expressing their normal sexuality.</p> <p>A. Identifies common myths related to sexuality.</p> <p>B. Identifies nursing assistant's responsibility of reporting inappropriate expressions of sexuality to supervisor.</p>	<p>Appropriate and inappropriate expressions of sexuality.</p> <p>A. Common myths.</p> <p>B. Reporting responsibilities related to sexuality.</p>	

<p>3.7 Facilitates the resident's expression of needs and provides supportive communication.</p> <p>A. Assists and encourages residents to be independent in the activities of daily living.</p> <p>B. Modifies care to accommodate resident values, customs, preferences or habits.</p> <p>C. Utilizes resident's family as a source of resident emotional and/or spiritual support.</p>	<p>Various communication methods and enhancing two-way exchange of ideas and responding to needs.</p> <p>A. Supporting choices and control in activities of daily living.</p> <p>B. Adaptation of personal care to accommodate resident preferences.</p> <p>C. Family participation in supporting the resident to strive towards common goals.</p>	
---	--	--

4.0 Competency: Demonstrates effective communication. Time Allotted: 2 hrs.

Learning Goals	Content Outline	Learning Activities and/or Reading Assignment Resources
<p>4.1 Uses verbal and nonverbal communication to accurately present information.</p> <p>A. Uses appropriate medical terminology and abbreviations.</p> <p>B. Communicates with members of the healthcare team.</p> <p>C. Communicates with residents and family.</p>	<p>Communication concepts:</p> <p>A. Medical terminology and abbreviations.</p> <p>B. Types of communication Chain of command.</p> <p>C. Communication techniques Conflict management</p>	<p><u>Read:</u></p> <ul style="list-style-type: none"> Chapter 2: Foundation of Resident Care Chapter 10: Caring For Yourself <p><u>Assignment:</u></p> <ul style="list-style-type: none"> Complete related Workbook chapters. <p><u>Lab: Skills Practice</u></p> <ul style="list-style-type: none"> Complete a resume Job interview (Done last week of class)
<p>4.2 Responds effectively to resident's behavior in a positive non-threatening way.</p> <p>A. Identifies communication guidelines.</p>	<p>Principles of positive communication.</p> <p>A. Communication guidelines</p>	

<p>B. Identifies barriers to communication.</p>	<p>B. Barriers to communication.</p>	
<p>4.3 Observes and describes resident's physical and emotional condition changes.</p> <p>A. Identifies subjective observations.</p> <p>B. Identifies objective observations.</p> <p>C. Identifies emergencies.</p>	<p>Key concepts for recognizing changes to report.</p> <p>A. Subjective observations.</p> <p>B. Objective observations.</p> <p>C. When to report.</p> <ol style="list-style-type: none"> 1. Emergencies versus routine observations. 2. Timeliness of reporting observations. 	
<p>4.4 Demonstrates communication skills with the resident who has sensory deficits.</p> <p>A. Demonstrates effective communication with hearing impaired resident.</p> <p>B. Demonstrates effective communication with the visually impaired resident.</p> <p>C. Demonstrates effective communication with the aphasic resident.</p> <p>D. Demonstrates effective communication with the cognitively impaired resident.</p> <p>E. Communicating with the comatose resident.</p> <p>F. Demonstrates effective communication with the physically aggressive resident.</p>	<p>Communication skills for residents with a sensory deficit.</p> <p>A. Guidelines for communicating with the hearing impaired.</p> <p>B. Guidelines for communicating with the visually impaired.</p> <p>C. Guidelines for communicating with the aphasic resident.</p> <p>D. Guidelines for communicating with the cognitively impaired resident.</p> <p>E. Guidelines for communicating with the comatose resident.</p>	

G. Demonstrates effective communication with the verbally aggressive resident.	F. Guidelines for communicating with the physically aggressive resident. G. Guidelines for communicating with the verbally aggressive resident.	
--	--	--

5.0 Competency: Maintains a safe environment for the resident and others. Time Allotted: 2 hrs.

Learning Goals	Content Outline	Learning Activities and/or Reading Assignment Resources
<p>5.1 Identifies ways to promote safety and handle non-medical emergencies.</p> <p>A. Explains safety and risk management principles and concepts.</p> <p>B. Adheres to safety policies and plans of the facility.</p> <p>C. Describes how to use safety equipment.</p>	<p>Principles of environmental safety.</p> <p>A. Concepts to understand</p> <ol style="list-style-type: none"> 1. Safety 2. Risk management 3. Accident/incident reporting 4. Safety hazards <p>B. Environmental safety plans, policies, procedures and their purposes.</p> <ol style="list-style-type: none"> 1. Safety/risk management 2. Disaster plans 3. Bomb threat 4. Infection control procedures 5. Hazard communication 6. Radiation protection measures 7. Fire plan 8. Evacuation plan (floor/exit plan) 9. Toxic chemical and material safety data sheets (MSDS) protocols 10. Oxygen Usage <p>C. Safety Equipment</p> <ol style="list-style-type: none"> 1. Fire extinguishers 2. Eye wash station 3. Resident's preference to specific care <p>K. Prosthetic and orthotic devices.</p> <ol style="list-style-type: none"> 1. Purposes and principles 2. Types of devices and their care. 	
<p>9.3 Reports and documents personal care and grooming tasks, observations and resident response.</p>	<p>Reporting and documentation responsibilities</p> <p>A. Completion</p> <p>B. Observations</p>	

	C. Resident tolerance, response or problems with personal care.	
--	---	--

10.0 Competency: Measures vital signs. Time Allotted: 4 hrs.

Learning Goals	Content Outline	Learning Activities and/or Reading Assignment Resources
<p>10.1 Identifies normal vital signs values and age-related variations.</p>	<p>Normal vital signs values by age groups.</p> <p>A. Normal range of oral, rectal and tympanic temperatures.</p> <p>B. Normal pulse rates.</p> <p>C. Normal respiratory rate.</p> <p>D. Normal blood pressure.</p>	<p><u>Read:</u></p> <ul style="list-style-type: none"> Chapter 7: Basic Nursing Skills <p><u>Assignment:</u></p> <ul style="list-style-type: none"> Complete related Workbook chapters. <p><u>Lab: Skills Practice</u></p>
<p>10.2 Measures and records body temperature.</p> <p>A. Identifies purpose of taking a temperature.</p> <p>B. Lists factors that affect body temperature.</p> <p>C. Demonstrates taking an oral, rectal, and tympanic temperature.</p> <p>D. Accurately records temperature using appropriate units of measurement.</p> <p>E. Identifies and reports abnormal findings.</p>	<p>Principles of Body Temperature.</p> <p>A. Purpose of taking a temperature.</p> <p>B. Factors that affect body temperature.</p> <p>C. Procedure for obtaining an oral temperature; rectal temperature; tympanic temperature.</p> <p>D. Recording a temperature and units of measurement.</p> <p>E. Abnormal temperature reading.</p>	
<p>10.3 Measures and records pulse (radial, apical).</p> <p>A. Identifies purpose of obtaining a pulse.</p>	<p>Pulse (Radial, Apical, Carotid, Brachial)</p> <p>A. Purpose of obtaining a pulse rate.</p>	

<p>B. Lists factors that affect pulse rate.</p> <p>C. Accurately counts a radial pulse.</p> <p>D. Accurately counts an apical pulse.</p> <p>E. Accurately records pulse rate.</p> <p>F. Identifies and reports abnormal findings.</p>	<p>B. Factors affecting pulse rate.</p> <p>C. Procedure for taking a radial pulse.</p> <p>D. Procedure for taking an apical pulse.</p> <p>E. Recording pulse rate</p> <p>F. Abnormal pulse rate: 1. Tachycardia 2. Bradycardia 3. Arrhythmia</p>	
<p>10.4 Measures and Records Respirations.</p> <p>A. Identifies purpose of obtaining a respiratory rate.</p> <p>B. Lists factors affecting respiratory rate.</p> <p>C. Accurately counts respiratory rate.</p> <p>D. Records respiratory rate.</p> <p>E. Identifies and reports abnormal respiratory rate.</p>	<p>Respirations</p> <p>A. Purpose of obtaining a respiratory rate.</p> <p>B. Factors influencing respiratory rate.</p> <p>C. Procedure for obtaining a respiratory rate.</p> <p>D. Recording respirations</p> <p>E. Abnormal respiratory rates and patterns. 1. Tachypnea 2. Bradypnea 3. Apnea 4. Variable patterns</p>	
<p>10.5 Measures and records blood pressure.</p> <p>A. Identifies the purpose of taking a blood pressure.</p>	<p>Blood Pressure</p> <p>A. Purpose of taking a blood pressure.</p>	

<p>B. Lists factors influencing blood pressure.</p> <p>C. Demonstrates use of a stethoscope.</p> <p>D. Demonstrates use of a sphygmomanometer.</p> <p>E. Obtains a blood pressure.</p> <p>F. Recognizes precautions and contraindications to taking a blood pressure.</p> <p>G. Demonstrates technique for taking an orthostatic blood pressure.</p> <p>H. Records systolic and diastolic pressure.</p> <p>I. Reports abnormal blood pressure values.</p>	<p>B. Factors influencing blood pressure.</p> <p>C. Use of the stethoscope in taking blood pressure.</p> <p>D. Using a sphygmomanometer; types of cuffs; cuff size.</p> <p>E. Procedure for obtaining a blood pressure using a stethoscope and sphygmomanometer.</p> <p>F. Guidelines /precautions /contraindications to taking a blood pressure.</p> <p>G. Procedure for taking orthostatic blood pressure.</p> <p>H. Recording systolic and diastolic pressure.</p> <p>I. Abnormal findings.</p>	
<p>10.6 Measures and Records Height and Weight.</p> <p>A. Identifies purpose of measuring height and weight.</p> <p>B. Lists factors affecting height and weight.</p> <p>C. Describes a variety of scales and height measurement tools.</p> <p>D. Demonstrates measuring a resident's weight using a balanced scale.</p> <p>E. Demonstrates taking a resident's height using a measure bar.</p>	<p>Height and Weight</p> <p>A. Purpose of measuring height and weight.</p> <p>B. Factors affecting height and weight.</p> <p>C. Scales and measuring devices.</p> <p>D. Procedure for measuring weight using a balanced scale.</p>	

F. Discusses methods of obtaining height and weight in bedridden residents.	E. Procedure for measuring height using a measure bar.	
G. Records height and weight.	F. Procedures for measuring height and weight in bedridden residents.	
H. Reports abnormal weight.	G. Recording height and weight in units of measurement.	
	H. Abnormal weight: excessive loss/gain.	

11.0 Demonstrates safe transfers, positioning and turning of residents using effective body mechanics. Allotted Time: 4 hrs.

Learning Goals	Content Outline	Learning Activities and/or Reading Assignment Resources
11.1 Demonstrates safe body mechanics. A. Identifies principles of body mechanics. B. Employs safe body mechanics when caring for residents. C. Identifies improper body mechanics.	Body Mechanics A. Principles of proper body mechanics. B. Techniques of body mechanics. Proper positions for performing procedures. C. Unsafe body mechanics.	<u>Read:</u> <ul style="list-style-type: none"> Chapter 2: Foundations of Resident Care Chapter 3: Understanding Residents Chapter 6: Personal Care Skills Chapter 7: Basic Nursing Skills Chapter 9: Rehabilitation and Restorative Care <u>Assignment:</u> <ul style="list-style-type: none"> Complete related Workbook chapters. <u>Lab: Skill Practice</u>
11.2. Identifies the effects of limited mobility.	Limited Mobility Bedrest A. Effects of Limited Mobility. B. Complications of Bedrest.	

	<p>C. Tasks that may be performed by the Nursing assistant that prevent complications.</p> <ol style="list-style-type: none"> 1. Movement 2. Positioning 3. Alignment 4. Range of motion 5. Restorative care & rehabilitation 	
<p>11.3 Assists residents in positioning and turning.</p> <p>A. Demonstrates the different body positions used for positioning residents.</p> <p>B. Demonstrates turning techniques.</p> <p>C. Demonstrates use of assistive devices when positioning a resident.</p>	<p>Guidelines and principles for positioning residents.</p> <p>A. Techniques for positioning residents:</p> <ol style="list-style-type: none"> 1. Side lying 2. Supine 3. Prone 4. Sim's 5. High and low Fowler's 6. Trendelenburg 7. Lithotomy 8. Orthopedic 9. Log-rolling 10. Move up in bed 11. Dangling <p>B. Turning techniques:</p> <ol style="list-style-type: none"> 1. Draw sheet 2. Mechanical lifts 3. Log roll <p>C. Use of assistive devices.</p> <ol style="list-style-type: none"> 1. Trochanter rolls 2. Foot boards 3. Hand rolls 4. Bed cradles 5. Abdominal pillows 6. Abductor pillow 	

<p>11.4 Assists the resident to transfer from bed to chair/gurney/stretchers/geri chair.</p> <p>A. Demonstrates different transfer techniques.</p> <p>B. Demonstrates use of assistive devices in transferring residents.</p>	<p>Guidelines and principles for moving & lifting residents.</p> <p>A. Use of transfer techniques.</p> <ol style="list-style-type: none"> 1. Chair 2. Gurney 3. Stretcher 4. Geri Chair <p>B. Assistive devices used in transferring residents.</p> <ol style="list-style-type: none"> 1. Gait belt 2. Mechanical lifters 3. Slide board 4. Lift sheet 	
<p>11.5 Assists residents to ambulate.</p> <p>A. Identifies functional limitation inhibiting ambulation.</p> <p>B. Identifies safety considerations in ambulating a resident.</p> <p>C. Identifies the care of the resident who has fallen.</p> <p>D. Demonstrates the use of assistive devices in ambulation such as crutches, walker, cane and wheelchair.</p>	<p>Principles/rationale for ambulation</p> <p>A. Functional limitations.</p> <p>B. Safety considerations for residents at risk for falling.</p> <p>C. Care of fallen resident.</p> <ol style="list-style-type: none"> 1. Reporting pain behaviors 2. Facility protocols <p>D. Use of assistive devices in ambulation</p> <ol style="list-style-type: none"> 1. Gait belt 2. Cane, Quad cane, Hemi cane 3. Walker 4. Crutches 	

		5. Wheelchair	
11.6	<p>Demonstrates passive and active range of motion.</p> <p>A. States principles of and rationale for passive/active range of motion.</p> <p>B. Identifies key terms to describe joint movements.</p> <p>C. Safely applies range of motion principles when performing range of motion exercises on major joints, extremities.</p> <p>D. Provides care for resident when continuous passive range of position device is in use.</p>	<p>Range of Motion</p> <p>A. Principles/rationale for passive/active range of motion.</p> <p>B. Joint Movements</p> <ol style="list-style-type: none"> 1. Adduction/abduction 2. Flexion/extension 3. Hyperextension 4. Internal/external rotation. 5. Supination/pronation <p>C. Range of motion to shoulder, elbow, wrist, hands, fingers, thumb, hip, knee, ankle, foot, and toes.</p> <p>D. Caring for residents with Continuous Passive Range of Motion (CPM) devices.</p>	
11.7	<p>Removes and applies oxygen devices during transfers with supervision without changing oxygen settings.</p> <p>A. Identifies oxygen sources and methods of delivery.</p>	<p>Transferring the Resident receiving Oxygen</p> <p>A. Oxygen sources:</p> <ol style="list-style-type: none"> 1. Wall outlet 2. Oxygen tank 3. Concentrator 4. Oxygen cannula/prongs 5. Oxygen Mask 	

<p>B. Incorporates safety measures in caring for residents with oxygen.</p>	<p>B. Oxygen safety measures/ precautions.</p>	
<p>C. Utilizes principles of safe oxygen handling with removal and application of oxygen delivery devices.</p>	<p>C. Techniques of application and removal of oxygen devices/tanks.</p>	

12.0 Competency: Cares for cognitively impaired residents. Time Allotted: 2 hrs.

Learning Goals	Content Outline	Learning Activities and/or Reading Assignment Resources
<p>12.1 Addresses the unique needs and behaviors of individuals with dementia (Alzheimer’s & others) and delirium.</p> <p>A. Identifies types of cognitive impairment.</p> <p>B. Describes the effects of cognitive impairment on ADLs.</p> <p>C. Identifies the common diseases that cause dementia.</p> <p>D. Identifies illness/health issues that cause delirium.</p>	<p>Caring for residents with cognitive impairment</p> <p>A. Types of cognitive impairment: 1. Dementia 2. Delirium 3. Various levels of consciousness</p> <p>B. Effects of cognitive impairment on attention and memory/ language/ judgment/ special ability/ problem solving for everyday living.</p> <p>C. Common diseases (non-reversible causes of cognitive impairment). 1. Alzheimer’s disease 2. Lewy body dementia 3. Parkinson’s 4. Vascular dementia 5. Frontal temporal lobe dementia</p> <p>D. Illness/health issues (reversible causes of cognitive impairment - delirium)</p>	<p><u>Read:</u></p> <ul style="list-style-type: none"> • Chapter 5: Confusions, Dementia, Alzheimer • Chapter 2: Foundations of Resident Care <p><u>Assignment:</u></p> <ul style="list-style-type: none"> • Complete related Workbook chapters. <p><u>Lab:</u> Skills practice</p> <p><u>Clinical experiences</u></p>

<p>E. Lists environmental factors that may contribute to dementia, delirium, etc.</p> <p>F. Lists unique needs of individuals with cognitive impairment.</p> <p>G. Communicates effectively with cognitively impaired residents.</p>	<ol style="list-style-type: none"> 1. Medications 2. Nutrition/fluids (including alcohol) 3. Fever/infection/anemia 4. Mental/emotional problems (depression, grief, fatigue) 5. Injury/surgery <p>E. Environmental factors.</p> <ol style="list-style-type: none"> 1. Unfamiliar, large, cluttered environment 2. Lack of cues from the environment 3. Lack of stimulation from the environment 4. Over stimulation 5. Lack of routine 6. Television <p>F. Unique needs of residents with cognitive impairment.</p> <ol style="list-style-type: none"> 1. Communication needs 2. ADL needs 3. Social needs 4. Meaning activities 5. Diversions/Reassurance 6. Safety needs <p>G. Communication techniques.</p>	
<p><u>12.2</u> Respond appropriately to the behavior of cognitively impaired residents.</p> <p>A. Identifies and explains the unique behaviors demonstrated by individuals with cognitive impairment.</p>	<p>Common behavior of cognitively impaired residents and nursing assistant care and intervention.</p>	

<p>B. Utilizes interventions to reduce the effects of cognitive impairments.</p>	<p>A. Behaviors of residents with cognitive impairment</p> <ol style="list-style-type: none"> 1. Resistance to care 2. Forgetfulness and confusion 3. Agitation 4. Hoarding/Rummaging 5. Shadowing 6. Wandering and Pacing 7. Hallucinations, Delusions, Paranoia 8. Sundowning 9. Perseveration 10. Aggression – physical, verbal 11. Sexual behavior – disinhibition <p>B. Interventions to reduce effects of cognitive impairment.</p> <ol style="list-style-type: none"> 1. Approach strategies 2. Knowing the resident 3. Following the care plan promoting as much independence as possible 4. Set routine, be consistent (toileting, feeding, bathing) 5. Verbal cueing with praise/reward 6. Manual cueing with praise/reward 7. Joining their reality 8. Validation 9. Reminiscence 10. Activities 11. Music 12. Sensory stimulation 13. Safety 14. Simple, time-appropriate environment 15. Understanding behaviors as unmet physical or social needs 	
--	---	--

	16. Ignoring inappropriately safe behaviors 17. Offer choices when appropriate 18. Avoid restraints 19. Mobility alarms 20. Responding to sexual behaviors	
12.3 Reports behaviors and resident responses.	Situations that need to be reported A. New or increased changes in behavior B. Further deterioration in physical/mental abilities C. Effectiveness of current behavioral management	

13.0 Competency: Identifies the function, structure, common health problems and normal aging changes of each of the following systems. Time Allotted: 17 hrs.

Learning Goals	Content Outline	Learning Activities and/or Reading Assignment Resources
13.1 Describes major body systems and organs. A. Defines key anatomical terms. B. Identifies the four types of tissues.	Organization of body – systems/ organs A. Key Terms B. Types of Tissues	<u>Read:</u> <ul style="list-style-type: none"> Chapter 4: Body Systems and Related Conditions <u>Assignment:</u> <ul style="list-style-type: none"> Complete related Workbook chapters. <u>Lab:</u> <ul style="list-style-type: none"> Midterm Skills Exam (2 or 3 skills)

<p>13.2 Identifies the function, structure, common health problems and normal aging changes of the respiratory systems.</p> <p>A. Identifies the structure & function of each component of the respiratory system.</p> <p>B. Describes the age-related changes of the respiratory system.</p> <p>C. Describes common health problems involving the respiratory system.</p> <p>D. Identifies signs and symptoms that the nursing assistant should observe for and report.</p> <p>E. Measures and records oxygen saturation using the pulse oximeter.</p>	<p>Respiratory System</p> <p>A. Components and functions of respiratory system:</p> <p>B. Effects of aging on the system</p> <p>C. Common health problems including signs and symptoms: 1. COPD 2. Bronchitis 3. Asthma 4. TB 5. Pneumonia</p> <p>D. Signs & symptoms to observe & report to nurse</p> <p>E. Oxygen saturation</p>	
<p>13.3 Identifies the function, structure and common health problems and normal aging changes of the circulatory system.</p> <p>A. Identifies the structure & function of each component of the circulatory system.</p>	<p>Circulatory System</p> <p>A. Components and functions of the circulatory system</p>	

<p>B. Describes the age-related changes of the circulatory system.</p> <p>C. Describes common health problems involving the circulatory system.</p> <p>D. Identifies signs and symptoms that the nursing assistant should observe for and report.</p>	<p>B. Effects of aging on the system</p> <p>C. Common health problems including signs and symptoms: 1. Atherosclerosis 2. Arteriosclerosis 3. Angina 4. Myocardial infraction 5. Coronary artery disease 6. Heart failure 7. Hypertension 8. Irregular heart rates (pacemakers) 9.
